"The Lord of the World"

Youth of Endless Semours, Fountainhead
of the Will, Ancient of Days, The One Initiator

S. K. is one of seven Kumaras working
with the Planet Earth as directing agents
and transmitters of the energy, force, purpose,
and the will of the Planetary Logos.

S. K. is a direct reflection of that great Entity
in whom we live move and have our being,
the Planetary Logos.

S. K. is an outer expression as it were of a greater
spiritual being. The Lord of the World holds
the same position to the Planetary Logos
as the ~~the~~ physical manifestation of a Master
holds to the Master Mound.

He was not able to take on a dense physical
body on our plane due to the relative purity of his
own being, thus he resides in his etheric body.

With the coming of S. K. to Earth to aid

the Planetary Logos in the development

there came a group of highly evolved

Entities who represent His own Karmic

group and those Beings who are the

outcome of the triple nature of the Planetary Logos,

These Entities embody the forces emanating
from the head heart and throat centers. They
came w/ S.K. to form focal points of planetary
force for the helping of the great plan
for self-concealment of all life.

S.K. with the six other Kumaras act
as the planetary head center and work
directly through the heart & throat centers
and thereby control all the other centers.

The place where S.K. and the ^{council} seven
reside is at Shamballa, a center in the
Lili Desert, also known as the Kibito Desert.
It exists in the etheric

These six Kumaras are students
of S.K. S.K. being the highest of the seven
